

## **Looking for a business solution to automate the storage and management of your court documents and record requests?**

Today courts are continually trying to keep up with the amount of records requests received while striving to remain compliant and ensure sensitive information is protected.

### **Document Imaging & Redaction Best Practices Workshop**

Intellinetics would like to invite you to attend a workshop on Document Imaging and Redaction Best Practices. This workshop will be held on November 12th, 2009 from 10:00am to 2:00pm with a working lunch.

Headquartered in Columbus, Ohio, Intellinetics is a document management software company serving a broad range of industries where ease-of-use, speed, reliability, and security are key concerns. Since 1994, Intellinetics has been the premier software solution in the public and private sector for processing, storing, managing and disseminating data across the enterprise. The result is a system that lowers costs, improves efficiencies and empowers people to think and work in new ways.

Attending this event will provide you information about document management, redaction capabilities related to public records requests, privacy protection regulations, and best practice case studies from local Ohio court organizations.

Smarter documents mean smarter business, and smarter business could mean the following for your organization:

- Increase organizational productivity
- Reduce file retrieval time by 70%
- Reduce the cost of document processing, storage and dissemination
- Eliminate the leak of sensitive information
- Reduce the risk of litigation for noncompliance with regulatory requirements
- Enhance your ability to comply with current and future regulatory mandates
