IntelliCloud™ Document Management for:

Food Services

IntelliCloud™ is an advanced document management platform providing a new industry benchmark in its ability to deliver economic and operational impact.

IntelliCloud™ offers:

- *Low cost delivery model*
- *Rapid implementation*
- *Ease of use*
- *On-demand business solutions*
- *Immediate access to information*
- *Reduced storage requirements*

Features

Viewing flexibility

- Customized indexing
- Dynamic search and retrieval of stored information
- Prevents lost or misfiled documents
- Supports indexing with barcodes
- Online viewing for collaboration
- 24x7 online access

Advanced privacy technology – redaction

Allows you to “black out” sensitive content when the document is viewed, printed or shared. Provides both:

- User-controlled redaction
- Automated redaction

Audit Shield™

- Comprehensive document exception reporting engine
- Quickly & easily identifies missing documents
- Easy user interface to create standard or add-hoc policies
- Results are saved

Host system integration

Intellinetics technology easily links with your existing host business application to support:

- Dynamic database lookups
- Retrieval via DirectVUE™ one-touch technology

Work flow

Enables users to electronically:

- Review documents
- Conduct approvals
- Route content
- Assigning work task and states
- Enable audit trails

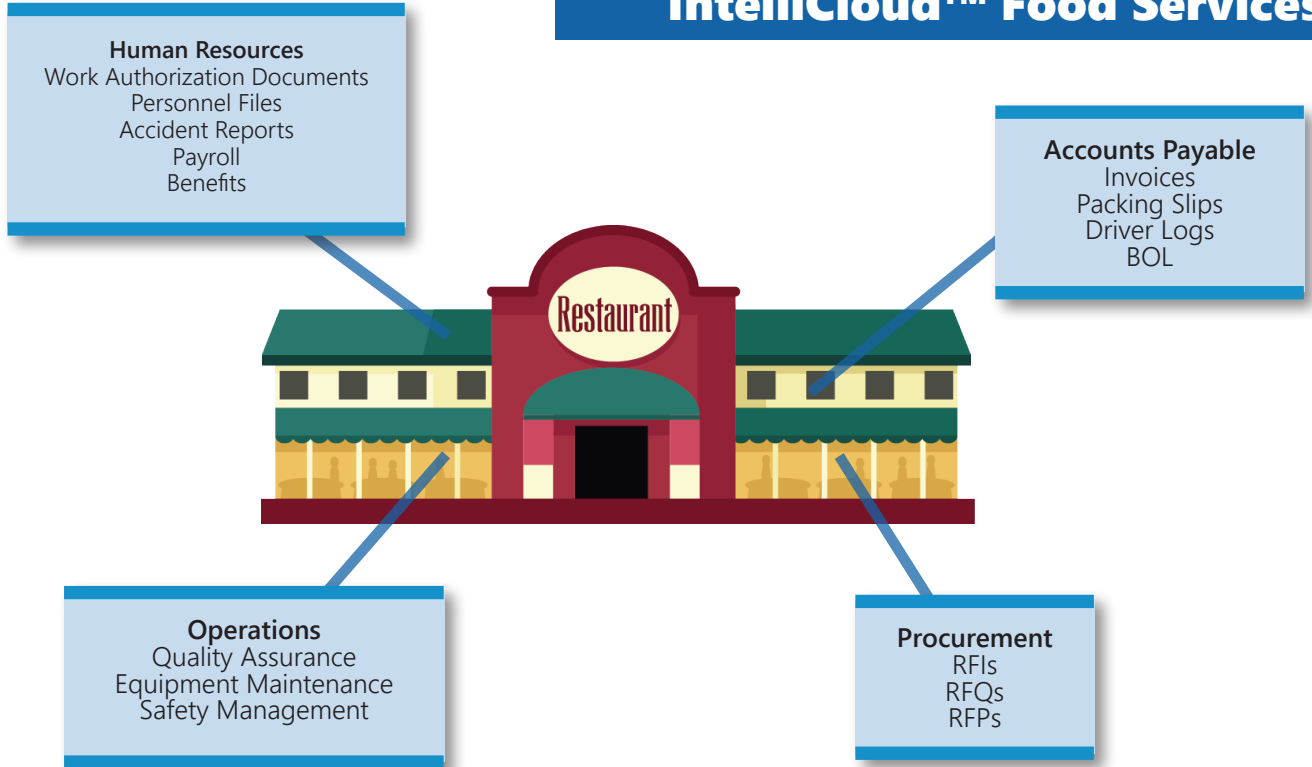

Records management

Helps users:

- Manage paper and electronic records through long-term archiving
- Automate document retention policies
- Ensure legal, regulatory and industry compliance
